Oleg Slepov

Senior Software Engineer

SAMPLE CV / DEMO CONTENT

EXPERIENCE

- 12+ years
- Product-minded
- Engineering-driven

CORE STACK

- TypeScript / JavaScript
- React / Next.js / Vue
- Node.js / PostgreSQL
- Docker / Git / Playwright
- Figma / accessible UI

CONTACT

- Omitted in demo CV
- Replace before publishing

PROFILE

I turn complex ideas into simple, fast, and thoughtfully crafted digital products, combining product thinking, interface design, and reliable engineering.

SELECTED PORTFOLIO

Shopify Theme

2025-2026 / Frontend engineering

A responsive theme system with reusable sections and Bricks and Tiles storefront presets.

Vision VPN

2025 / Product design and full-stack

A subscription experience for choosing, purchasing, and managing secure VPN access.

Range Rover HMI

2018 / HMI concept and interaction design

A lower-screen interface concept for climate, seats, and comfort settings.

WORKING PRINCIPLES

- Understand the problem before choosing the solution.
- Build clear, maintainable systems with modern tools.
- Measure, refine, and scale what proves useful.

This sample CV is generated for the portfolio demo. It is not a verified employment record and intentionally omits personal contacts.
